PROFILE

Front-End Developer with 6+ years of experience creating dynamic and responsive web applications. Specialized in React, JavaScript, and TypeScript with a strong focus on performance, accessibility, and user experience. Passionate about building intuitive, impactful digital products and collaborating in agile environments.

PROFESSIONAL EXPERIENCE

Front End Developer, *Kibrit tech* 08/2020 – Present
Baku

- Led front-end development for the **Iqlime** project, enabling real-time monitoring and management of environmental conditions (temperature, humidity, etc.) via web and mobile interfaces with live notifications.
- Played a key role in the **Orangeline** project, developing modules for **Omnichannel Communication**, **CRM**, **Task Management**, and **Real-Time Monitoring**.
- Integrated communication tools such as **Facebook**, **WhatsApp**, **Telegram**, **Instagram**, and website chat for seamless customer engagement.
- Utilized **React.js**, **Redux**, **Axios**, **TypeScript**, **Material UI**, **SIP.js**, and **ESLint** throughout project lifecycle.

Front End Developer, *Overdose* 09/2019 – 08/2020
Kiev (Remote)

- Designed and developed a large-scale E-commerce web application using **ReactJS**, **Redux**, **GraphQL**, **Storybook**, **HTML**, and **CSS**.
- Improved frontend performance and UI consistency through modular component development and optimized state management.
- Enhanced code quality and maintainability through reusable design systems.

EDUCATION

Japanese language, *Kanrin Japanese school* 2017 – 2018
Kawasaki

Business Administration and Management, 2006 – 2010
Azerbaijan State University of Economics (UNEC) Baku
